

March 2025

Subject: 3M™ Nextel™ Ceramic Fibers and Textiles, phase out of select products

Dear Graco Roberts,

We hope this letter finds you well. At 3M, we are committed to continuously improving our product offerings and striving to meet the evolving needs of our valued customers. As part of our ongoing efforts to streamline our product portfolio, we have made the decision to phase out a select set of Nextel fiber products.

Please be assured that 3M remains fully committed to the Nextel fiber product portfolio and to helping you solve your challenges with innovative solutions. By focusing on a more streamlined product range, we will be better positioned to provide you with the high level of service and quality that you have come to expect from 3M.

We understand that this change may impact your operations, and we want to support you through this transition. To facilitate a smooth phase-out process, we are offering the opportunity for a last-time buy of the affected products, on a first come, first served basis or until inventory is depleted. Orders for these products must be received by June 30, 2025, and a target to be fulfilled no later than October 31, 2025.

Please reach out to your sales or customer service representative for assistance with any questions or concerns you may have regarding this phase-out. We are here to help you identify alternative solutions within our Nextel Fiber product portfolio to help you meet your needs. You will need to determine whether the alternative solutions are suitable for your intended application.

Thank you for your understanding and continued collaboration. We value your business and look forward to continuing to support you with our innovative products and solutions.

Sincerely,

Tom McGee  
USAC Area Portfolio Leader  
3M Company
