**RE: Reformulation Notice – Silver-Plated Copper CHO-SEAL, CHO-BOND & CHO-FORM**

Thank you for your continued partnership with Parker Chomerics. Due to the discontinuation of a critical raw material, several silver-plated copper filled CHO-SEAL, CHO-BOND & CHO-FORM products have been reformulated. There are no actions required on your part; however, we ask that you please review the key details below and contact your inside sales representative with any questions.

All Part Numbers for Products Affected:

- CHO-SEAL 1212, 1215, 1217, 1250, 1270, 1273
- CHO-BOND 1029, 1038, 1121
- CHO-FORM 5513, 5528

Key Details:

- Products qualified with replacement silver-plated copper meets Chomerics' internal product qualification (including MIL-DTL-83528) and conformance specifications
- Customers may notice a slight color change for products qualified with the replacement silver-plated copper powder with no impact to form, fit, or function of the products
- Products qualified with replacement silver-plated copper powder will not require any SDS changes as they will be chemically equivalent to the original products
- Transition begins on or before January 30, 2026. We will notify the purchase order contact one week before shipment of product using the new silver-plated copper powder
- Qualification reports will be available

For any questions please contact your inside sales representative at [cho.service@support.parker.com](mailto:cho.service@support.parker.com). We appreciate your business and will support a smooth transition.
