RE: Product discontinuation: Bostik L1007M

Dear Valued Customer,

We are writing to inform you about an important update regarding Bostik's liquid adhesive 1007M (the "Product").

Due to circumstances beyond our control, one of the raw materials used in the production of the Product has been discontinued by our supplier. As a result, Bostik is discontinuing the Product.

Bostik estimates that it has secured enough of this raw material to support current forecasted requirements through June 2025.

We are actively working to find a suitable raw material alternative in order to offer an alternative product of similar quality and availability. We are committed to keeping you informed throughout this process and will provide updates as soon as we have identified a viable alternative.

Your satisfaction is our top priority, and we appreciate your understanding and patience as we navigate this transition. Please feel free to reach out to your Bostik sales representative for assistance and guidance.

Sincerely,

Brad Stockel
Supply Chain Manager – Bostik, Durable Goods
