Product Notification
Scotch® Flatback Masking Tape 250 Tan

January 5th, 2025

Dear Valued Customer,

We are writing to inform you about important status update regarding availability of Scotch® Flatback Masking Tape 250 (“3M Product”) Tan. Our supply chain has recovered from a prolonged supply disruption caused by unexpected raw material shortage.

3M Product name, stocking number, and UPC will remain the same. As before, the product can be used in following adhesion testing methods:

- ASTM D3359
- FED-STD-141

As of December 3rd, 2025, 3M Product was re-qualified to SAE AMS3721 (Tape for Organic Coatings Adhesion Testing). 3M has resumed batch release certification to this specification.

You may notice a slight difference in the color of the backing compared to the previous iteration of the 3M Product. There may also be minor variations in tensile strength; however, these remain within the tolerances defined by the SAE AMS3721 specification. These differences result from the raw material change that affects the paper backing.

Product Name and Information:

- Product Name: Scotch® Flatback Masking Tape 250 Tan
- 3M SKU ID Number: 7000001488
- UPC Shipper Number: 50021200028767
